- Researcher access to some of the world's highest quality brain tissue via Banner Sun Health Research Institute's renowned brain and body tissue bank
- Innovative research identifying important impacts of cholesterol, inflammation, and estrogen in Alzheimer's disease

About Banner Sun Health Research Institute

For 23 years, Banner Sun Health Research Institute has been a leader nationally and internationally in the effort to find answers to disorders of aging including Alzheimer's disease, Parkinson's disease, arthritis and prostate cancer. The institute, together with its Arizona Alzheimer's Consortium partners, has been designated by the National Institutes of Health as one of just 31 Alzheimer's Disease Centers in the nation. The institute's Cleo Roberts Center for Clinical Research takes laboratory discoveries to clinical trials that foster hope for new treatments. Banner Health is Arizona's leading health care provider and second largest private employer.

Banner Sun Health Research Institute is affiliated with Banner Health non-profit community healthcare network.
